To All Second Grade Teachers

We will all be meeting on March 8th. Please bring with you a **sample copy of a language arts and math activity** that you do that follows the common core. We will share one idea for each subject per school. It is our intention to come away with several ideas that we all can use in our classroom!

FOOD FOR THOUGHT

1. What components of Journeys do you use on a daily basis?
2. Do you have any good common core websites that you use?
3. Do you read any novels? If so, which ones and when do you read them? What strategies do you focus on?
4. What math manipulatives do you use that correlate with the common core?
5. Any “snappy or unique” lessons for math?

We look forward to meeting with everyone on the 8th!

Sincerely,

Second Grade Team

St. Gabriel School
